SKILLS

Frontend:

- React.js & Redux
- JavaScript (ES6+)
- HTML5 & CSS3
- Tailwind CSS
- Material UI
- Framer Motion
- Responsive Web Design

Backend:

- Node.js
- Express.js
- RESTful APIs
- JWT Authentication
- Middleware Architecture

Database:

- MongoDB
- Mongoose ORM
- Aggregation Pipelines
- Data Indexing

Tools & DevOps:

- Git & GitHub
- Postman
- Vite
- EmailJS

EDUCATION

BITXBASE CODING ACADEMY.
October 2025 - May 2026

CERTIFICATIONS

Full-stack web development

PROFESSIONAL SUMMARY

Driven and detail-oriented Full Stack Web Developer specializing in the MERN stack (MongoDB, Express.js, React, Node.js). Experienced in designing scalable backend APIs, architecting efficient database schemas, and building responsive, high-performance front-end user interfaces. Skilled in end-to-end web application development, modern state management, and continuous delivery.

WORK EXPERIENCE

MERN Stack Developer | *Bitxbase Coding Academy*

September 2025– May 2026| Satellite town, Lagos state

- Engineered and deployed responsive web applications using React and Tailwind CSS, improving mobile user engagement and accessibility by **25%**.
- Developed scalable RESTful APIs in Express.js and Node.js, integrating JWT authentication and role-based access control for secure user sessions.
- Architected MongoDB schemas and aggregation pipelines, optimizing query response times by **35%** for high-volume data endpoints.

Full Stack Web Developer | *Freelance*

January 2026– Present | Remote

- Built interactive single-page applications (SPAs) using React and Redux, decreasing initial bundle size and page load times by **30%**.
- Integrated third-party microservices including Stripe payment processing and automated email services via Express middleware.
- Maintained code quality and application performance through rigorous API testing using Postman and version control with Git/GitHub.

KEY PROJECTS

Rhivelle Finance- E-Commerce Platform

Loan management system built with React, Tailwind CSS, [Node.js](#), Express, MongoDB Atlas, and JWT authentication. Features secure login, role-based access, loan tracking, and responsive design.

TechCom 2026- Real-Time Dashboard

Developed a real-time productivity dashboard leveraging Socket.io, React, and Node.js to enable instantaneous multi-user collaboration and dynamic data updates.
